Global Community Communications Alliance  
P.O. 4910  
Tubac, Az. 85646

To Global Communications Alliance:

This correspondence is written in support of your Personality Integration Rehabilitation Program.

Our cooperative efforts to work with our youth have always resulted in achieving goals and tangible outcomes that promote and respect individual and group development for all participants. We value the results from the various projects that have included the youth and teachers and adults from Avalon Organic Gardens and EcoVillage and Mexicayotl Academy. From the youth forums, to the presentations of our Aztec Dance group, to the development of community gardens, the results have been both inspiring and mutually beneficial. The opportunity to stimulate youth to think in terms of sustainability and intercultural interaction, personal growth and the development of a true community are specific outcomes not found in many other projects.

We have appreciated the opportunity to work with everyone at Avalon Organic Gardens and EcoVillage and look forward to continued opportunities to work together for our youth.

In appreciation and solidarity

Baltazar Garcia  
Director Mexicayotl Academy
